

GEORGE JUAREZ

GIS ANALYST | GEOSPATIAL DATA & AUTOMATION

Los Angeles, California | [linkedin.com/in/george--juarez](https://www.linkedin.com/in/george--juarez)

PROFESSIONAL SUMMARY

GIS professional with two years of experience supporting demographic and regional planning research through geospatial analysis, geocoding, database management, workflow automation, and cartographic production. Proficient in ArcGIS Pro, ArcPy, ModelBuilder, ArcGIS Online, and SQL, with a strong record of improving data quality and building repeatable GIS workflows.

RELEVANT EXPERIENCE

Center for Demographic Research, California State University, Fullerton **Fullerton, CA**
GIS Research Assistant | *June 2024-Present*

- Developed and validated a composite geocoding locator in ArcGIS Pro using multiple authoritative datasets, improving parcel-level match accuracy by 69.5% in comparative testing.
- Built ModelBuilder and ArcPy workflows to automate building-footprint classification, standardize attribute population, and reduce manual data-entry errors.
- Collected, standardized, and prepared Housing Element inventory data from all 35 Orange County jurisdictions for regional GIS distribution and analysis.
- Geocoded and validated more than 10,000 employment and vital records for master geodatabases.
- Updated GIS datasets and map series supporting the 2026 Orange County Projections and regional planning work.
- Completed Census boundary updates for approximately half of Orange County during the 2030 Census Block Boundary Suggestion Program.
- Maintained GIS metadata, documented attribute revisions, and performed QA/QC to ensure spatial and tabular accuracy.
- Created reusable Excel formulas and GIS workflows that streamlined repetitive production tasks and supported team consistency.

TECHNICAL SKILLS

GIS & Automation: ArcGIS Pro 3.x, ArcMap 10.8, ArcGIS Online, ArcPy, ModelBuilder, SQL

Data Sources: U.S. Census Bureau, Census boundary programs, Housing Element inventories

Analysis & Data: Geocoding, spatial analysis, cartography, metadata, QA/QC, geodatabase management, coordinate systems

Professional: Technical writing, workflow documentation, team collaboration, independent research, attention to detail; English and fluent Spanish

EDUCATION

California State University, Fullerton **May 2025**
Bachelor of Arts in Geography, Emphasis in Environmental Analysis | GIS and Geospatial Technologies Certificates
Dean's List, Spring 2023-Spring 2025
